

Program Management

How Dimensional Community ran program management for a Sovereign Wealth manager, ensuring precision, coordination, and successful execution of a complex SimCorp transformation.

Supporting Enhanced Executive Oversight

Dimensional Community was engaged by a client navigating a critical technological and organizational transformation. The project demanded comprehensive program management across a multi-year SimCorp implementation, involving numerous work streams and technological transitions.

The client faced significant challenges that threatened the project's success. Outdated legacy systems were hindering operational efficiency, multiple internal and external interfaces created communication complexities, and a lack of standardized project management processes impeded strategic execution. These interconnected challenges required a sophisticated, holistic approach to ensure successful system implementation and organizational adaptation. The core problem was to stabilize project management and ensuring a coordinated implementation

CHALLENGES

- Interdependencies
- Risk Management
- Manpower
- Roles & Responsibilities

BENEFITS

- Streamlined Project Management
- Visual Project Performance
- Improved operational efficiency
- Fully aligned with strategic goals

A Comprehensive PMO Transformation Approach

To address these challenges, Dimensional Community designed a comprehensive solution that provided the client with a strategic and systematic approach to project management. Our solution focused on implementing a robust Project Management framework that centered around 9 continuous improvement tools and methods, illustrated below, to improve existing processes and design new ways of working, tailored specifically to the client's unique organizational needs.

We developed a comprehensive strategy that included establishing standardized project management processes, creating transparent communication channels, and implementing continuously improvement methodologies. Our approach involved working closely with the client and technology partners to ensure complete stakeholder alignment and develop a flexible, adaptive project management framework.

The solution encompassed a multi-dimensional approach: systematically implementing PMO disciplines, introducing continuous improvement tools, designing optimized processes, and creating a collaborative implementation strategy. We prioritized interventions based on the current project state and developed processes sophisticated enough for client self-management.

Key elements of our solution included developing advanced project tracking mechanisms, creating clear roles and responsibilities, implementing risk management protocols, and establishing a framework for ongoing performance evaluation and improvement.

Comprehensive Program Management for Complex Organization Transformations

Boosting Efficiency and Growth

The implementation delivered a comprehensive transformation of the client's project management capabilities. We successfully transitioned the organization from a fragmented, inefficient project management approach to a streamlined, transparent, and proactive system.

Our approach fundamentally reshaped the client's project management methodology, enabling a shift to fact-based project discussions with a balanced performance metric system that provided insights into project progress and potential challenges.

The transformation impacted multiple organizational aspects:

- Improved project and resource planning
- Strengthened risk and stakeholder management
- Enhanced organizational integration
- More objective and data-driven performance management
- Automated critical processes
- Improved inter-team relationships
- Aligned teams around core project objectives

The PMO implementation represented a holistic transformation that created a sustainable project management capability, positioning the client for enhanced operational excellence and strategic agility.

About Dimensional Community

Dimensional Community is a leading SimCorp consultancy, dedicated to empowering organizations to unlock the full potential of their SimCorp platforms.

We pride ourselves on building strong, long-term partnerships, providing not just consultancy, but a collaborative journey toward success and a partner you can trust in achieving excellence in SimCorp utilization.

Industry-leading expertise: Our team consists of SimCorp practitioners with at least 7 years of experience, delivering top-tier solutions.

Tailored, high-quality solutions: We provide simple, effective solutions that meet your specific business needs, ensuring long-term success.

Agile and efficient delivery: We emphasize rapid, iterative delivery, ensuring continuous improvement and seamless integration.
